Large Over-Ear Style Headphones

Where used:
E-Scope Electronic Stethoscope – Hearing Impaired Model

Description:
Each of the above Headphones can be with the E-Scope Electronic Stethoscope Hearing Impaired Models, 718-7710, 718-7711, or 718-7712. The connector on each of these headphones plug into the top connector on the E-Scope.

These same headphones can be ordered with a different connector to plug into the “Sounds Output” of the E-Scope. Using Headphones connected to the Sounds Output port is generally for a second listener. In the below table are listed the catalog numbers for the Headphones that connect to the Sound Output port.
